Principal

Phone: (201) 994-1830

**Upcoming Events:**

**October 10th - Columbus Day - No School**

## Ms. Bartnicki, Ms. Garcia, and Ms. Husti

Our classes are off to a great start this school year! We are happy to see our old friends again, and have welcomed many new friends too! We have been singing many songs at Circle Time, and learning calendar, weather, days of the week, and many more Pre-K skills. We are practicing social skills through directed play in the classroom, and on the playground. Our units this month are Me, Back To School, Johnny Appleseed, and Fall. We started working on the alphabet, and will work on the letters Aa and Bb this month. In Math, we are working on the numbers 1 and 2. Our color of the month is red, and we will start learning color words and fall colors. In

addition, we are also exploring different Spanish countries in honor of Hispanic Heritage Month! We are exploring different kinds of traditional music, dance, stories, and customs. It was great to see all of you at Back to School Night! We look forward to working together as a Pre-K Family!

## Ms. A. Lane

Ms. Lane's class is filled with six fun-filled young learners. Our Morning Meeting is where we sing the days of the week, months of the year, and identify each day! We sing Good Morning to our friends and teachers as well. In the afternoon, we complete MultiSensory Centers, and the letter of the week. We also enjoy outside recess and play. Ms. Lane's class is filled with lots of learning, and fun filled activities throughout the day!

## Ms. K. Lane, Ms. Sinclair, and Ms. Jackson

Welcome back to school, and thank you to everyone who joined us for our Back to School Night! We were so excited to welcome our brand new Kindergarteners to Lincoln School. Everyone has been having so much fun exploring our new

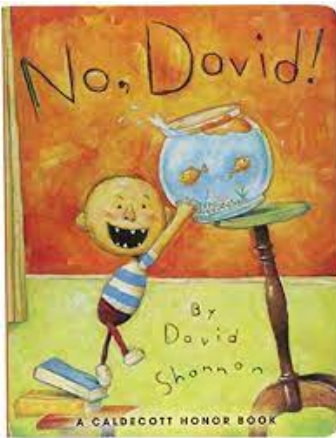

school, and making new friends. The Kindergarten has been working hard on learning our school and classroom rules, creating amazing self portraits and name projects, and learning how to collaborate and work together in small groups. We can't wait to see what exciting experiences this year brings!

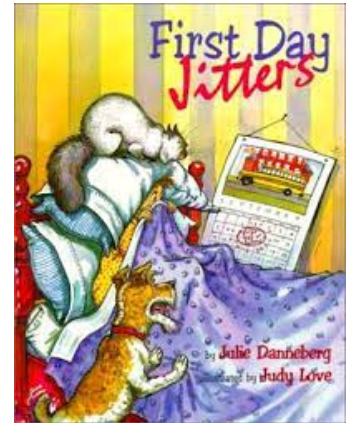

## Mrs. Davis and Ms. Rapp

Welcome back! The First Graders are off to a great start. We will be reviewing our short vowel sounds. In Math, we are beginning with simple addition and subtraction. The children have been enjoying the interactive read alouds. We read the story *No, David!*, and we came up with our class rules. We also read the story *First Day Jitters*. The students shared how they felt on their first day of school, and wrote about it. Thank you for bringing in the classroom supplies. It was nice to see everyone at Back to School Night. We are

looking forward to having a great school year!

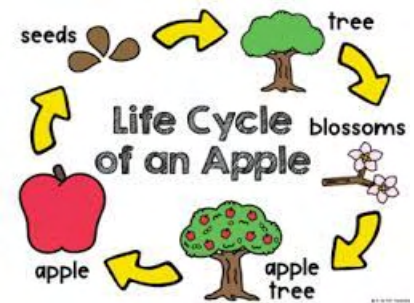

## Mrs. Bush

Welcome back! Our class is ready for learning, and we have been busy learning our classroom routines and expectations. We are excited about the fall season, and are learning all about apples in Science! Learning about the life cycle of an apple has been so much fun! Our Reading

groups have begun, and we are working on CVC and CVCE words. Our sight word wall is growing too!

Sea Monkeys have arrived in our room, as our new class pet! It is great to learn responsibility while taking care of these mystical sea creatures! We are looking forward to a great year!

## Ms. Manzo and Mrs. Olivieri

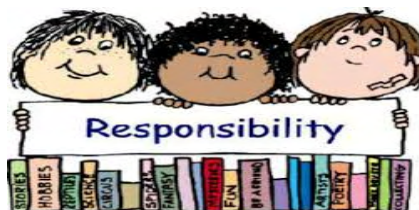

Welcome students and families to an exciting and fun filled school year. This year, in Second Grade, the children will be challenged to learn and grow through interactive and engaging lessons. Activities will spark imagination and creativity throughout the year. As the students begin settling into classroom routines and procedures, they will be working in Literacy Centers, Science Centers, Math

Centers, peer groups, and whole class discussion. In Math, we have been discussing initial number concepts including even, odd, and place value. Moving forward, instruction will focus on counting patterns, and operations in base ten. Students are encouraged to practice math facts daily, to strengthen fact recall. Readers and Writers Workshop will continue with

practice, both independently and in focus groups. Children will be writing daily, completing published projects, and journals. Over the next few weeks, we will be focusing on journal writing, and helpful tools to write long and strong. We have reviewed, and will continue to practice, the writing process including pre-writing, drafting, revising, editing, and publishing. We will be learning additional reading strategies and tips, identifying the setting and main characters of a story, along with summarizing a story, sequence, and making predictions. Students are encouraged

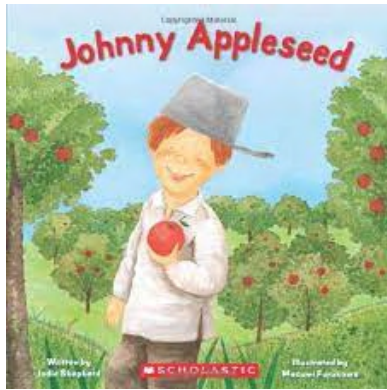

to read "long and strong" each day as part of their daily routine, and at home each evening. Students will be introduced to critical Social Studies concepts of teamwork, classroom rules, and communities. They will be encouraged to practice leadership skills with classroom jobs, and be engaged through hands-on learning activities. Please do not hesitate to contact us any time, at [amanzo@rpschools.net](mailto:amanzo@rpschools.net), and [kolivieri@rpschools.net](mailto:kolivieri@rpschools.net). Please include in each email the name of your child in the "subject line". We are looking forward to a fantastic school year!

## Mrs. Capazzi

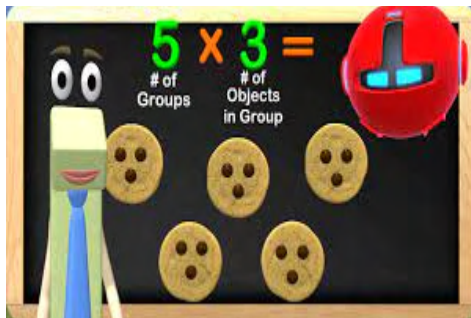

Welcome to the beginning of a new school year! It was wonderful to see so many families at our Back to School Night! The students are adjusting well to their new routine, as well as their new friends. In Math, some of our

children have been working on reading, and making and writing numbers 0 to 5, while others are working on understanding addition and subtraction. In ELA, our younger learners are working on identifying letters by name and sound. They are practicing writing letters with correct formation. Other students began spelling, phonics, guided reading, and learning new sight words! All students have learned about the American legend, John Chapman, better known as Johnny Appleseed. I look forward to another great year. Enjoy the weekend!

## Mrs. Cruz Betesh, Mrs. Houston, and Ms. Schupak

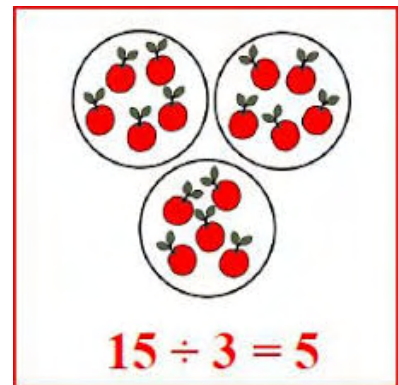

Dear Family,

Your child is learning how to multiply. Help him or her think of multiplication as joining equal groups. For example,  $5 \times 2$  is 5 groups of 2. So,  $5 \times 2 = 10$ .

Your child is also learning how to divide. Help him or her think of division as

sharing equally. For example,  $42 \div 7$  can be thought of as 42 crayons and 7 boxes. Each box has an equal number of crayons. There are 6 crayons in each box.

# Mr. Alkhazov

The students have been working hard sharpening up their Math and Reading skills this past week. They have been working hard on their "Get to Know Me" assignments. Meanwhile in Science, the boys have had a blast learning about the scientific method.
