

# LINC LN SCHOOL

**NEWSLETTER**  
Week of March 20, 2023

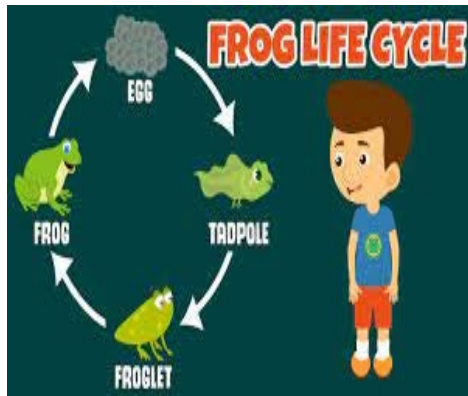

Dr. Stephen Ferraro  
Principal

Phone: (201) 994-1830

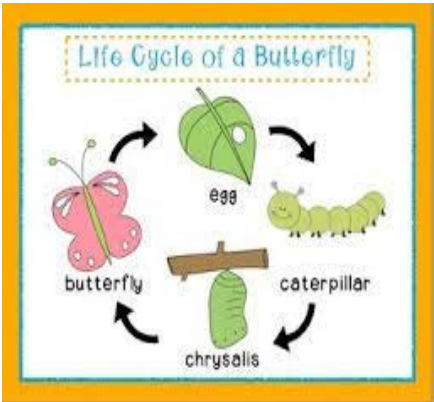

**Upcoming Events:**  
**April 7th-14th - No School - Spring Recess**

**Ms. A. Lane**

This month in Ms. Lane's class, we made lots of St. Patrick's Day arts and crafts. We learned about the frog life cycle and butterfly life cycle. In Math, we are learning about addition and subtraction. We have had a very fun-filled month of learning!

## Ms. Bartnicki, Ms. Garcia, and Ms. Husti

These last few weeks we have been learning about letters O, P, and Q. We welcomed some new friends to our classes, and we're so happy they are here! We worked on making Fruit Loop necklaces for letter O, pigs for P, and queens for Q. We also started talking about spring and even made a leprechaun trap! Then we had a small party for St. Patrick's Day! We can't wait to continue having fun in PreK!

## Ms. K. Lane, Ms. Sinclair, and Ms. J. Jackson

Happy Spring! We can't believe how fast this year is going! The Kindergarteners continue to work hard every day. In ELA, we are beginning to sound out CVC words. We are continuing to identify more sight words, distinguish between upper and lower case letters, and letter sounds. In Writing, we are becoming stronger authors and

illustrators. In Math, we are mathematicians using our manipulatives to add! We're excited, in Science, to continue learning about the spring weather and beginning the water cycle. We can't wait for all our upcoming activities!

## Mrs. Bush

Welcome Spring! Room 101 has been having so much fun learning about weather in Science! We are learning about clouds, activities to do in warm weather, how a rainbow forms, and so much more! In Reading, we are working on our word families, blends, and sight words. Our reading skills are growing every day! We are looking forward to the spring weather so we can get outside and play!

## Mrs. Capazzi

Mrs. Capazzi's class would like to welcome Ms. Roman, a teaching assistant, who is new to the classroom. We recently had two special guest readers visit our class. The students learned about what makes us unique by listening to *I'm Basically A Unicorn: A Celebration of What Makes Us Unique*, read aloud by Dr. Ferraro. The class also enjoyed the story *Bark, George*, read to us by Sixth Grader Aubrey Berrios. Students are learning the difference between fiction and nonfiction books and brushing up on rhyming skills. Have a great weekend!

## Ms. Manzo and Mrs. Olivieri

Spring has finally arrived! The Second Graders welcomed the new season with a creative hallway display, showcasing their understanding of recent math concepts including addition and subtraction with regrouping, money, and time! Students worked together in small groups to plan and develop unique examples of each skill to solve and present. We will be moving forward with three-digit addition and subtraction. Please continue to work on regrouping at home to strengthen mastery. Moving forward in Literacy, students will be transitioning from

nonfiction text to character studies, identifying main characters, character traits, and character feelings. Students will be able to infer and develop connections with characters. Students will also work on identifying what characters are doing, how characters are feeling, why characters feel certain ways, and how those feelings change throughout a story. Opinions are stirring much conversation in Writing, where children will be describing their opinions while providing reasons, explanations, and details. Economics is our new theme in Science/Social Studies, where students are learning about making, selling, and the purchasing of goods and services. We will also compare the topics of needs vs. wants, consumer vs. producer, and economic choice (spending vs. saving). Much excitement lies ahead in Second Grade!

## Mr. Alkhazov

The boys have been working very diligently in their Math and Reading classes, the past few weeks. In the mornings, they have been learning about the importance and benefits of cooperative work. In Reading, we are finishing up an animal theme unit that the students have been very actively participating in. 😊

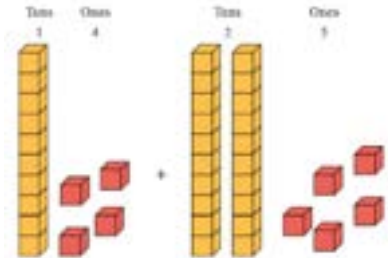

## Mrs. Davis and Ms. Rapp

In First Grade, we are working on a new writing unit, which is opinion writing. Students are writing an introduction, three reasons, and a closing statement. We are continuing to identify the main idea and supporting details in stories. In Math, students are using strategies to add tens. We wanted to say thank you to the class parents for providing

treats for our St. Patrick's Day party!

## Mrs. Cruz Betesh, Mrs. Houston, and Ms. Schupak

The Third Graders have been busy researching black Americans and amazing women this winter. We started out reading about famous figures in slavery, like Harriet Tubman and Sojourner Truth. We learned about The Underground Railroad and designed our own freedom quilts. Students then continued talking about The Civil Rights Movement and amazing people like Martin

Luther King, Jr. and Ruby Bridges, as well as Rosa Parks. We are now researching, writing, and illustrating biographies of famous women in honor of Women's History Month. In Writing, we are working on figurative language. We illustrated idioms, similes, and onomatopoeia. We also discussed hyperbole, personification, and metaphors. To use alliteration: Several students studied significant subjects in Science and Social Studies this semester.
